# CCC Challenges

The Practical

Mike Farley

Questions?

Overview

- CCC Forum – Registration

- CCC Forum – Image requirements

- Live demo:

  - Exporting images from Lightroom

  - Saving images in Photoshop CC / Elements

  - Uploading images to the Forum

- Final questions

Registering on the Forum

- Register link at top right
- Some sensible terms and conditions
- Create (meaningful) userid and password
- Supply a valid e-mail address
- Answer the question:
  ◦ When was Croydon Camera Club established?
- 1890 – not a secret!
- Press "Submit" and proceed to Login
- Other configuration options after registration

Forum Image Requirements

- JPEG
- Max 1024 x 768 pixels (width x height)
- Max 256 KB file size
- sRGB colour space recommended
- Maximum one image per post (Challenge only)
  - Other forums have maximum of three
- Lightroom – Export function
- Photoshop – Resize and save
- PhotoEntry message:
 "Image resized from low resolution upload"

Image Resize – Photoshop CC

▸ Fit to 1024 x 768 (preset for horizontal only)

▸ Or set Width and Height values to "Pixels"

▸ Ensure Width and Height are linked

▸ Horizontal format – set Width to 1024 pixels

▸ Vertical format – set Height to 768 pixels

▸ Other side will default to correct value

▸ Resolution – set to 72 (optional)

▸ Preserve Detail 2.0 or Bicubic Sharper (reduction)

▸ Option to create custom presets or actions

Image Resize – Photoshop Elements

- Set Width and Height values to "Pixels"
- Link Width, Height and Resolution
- Set "Constrain Proportions"
- Horizontal format – set Width to 1024 pixels
- Vertical format – set Height to 768 pixels
- Other side will default to correct value
- Resolution – set to 72 (optional)
- Bicubic Sharper (reduction)

Image Save

- Set to 8 bit (Preview not available with 16 bit)
  - Image > Mode > 8 bits
- Save as > JPEG
- Set Preview On
- Adjust quality slider until file size <= 256 KB
- Save
- Check file size in Windows Explorer / Finder

Forum Image Upload

▸ Drag and drop

▸ Or "Attachments" tab and use "Add files"

▸ Optionally, add caption

▸ Place Inline, if required
