

Croydon CC Newsletter – 18 April 2021

Chairman's Viewpoint

“Something has happened at Croydon Camera Club.”

These were words spoken by Monica Weller, our judge for the 4th round of the DPI competition. Having just seen one of the best selection of images in a club competition, it is hard to disagree. Monica is an experienced judge who would not award high marks unless deserved. It was not just the Advanced section, either. There were good images in all three classes and is a testament to the standard of work members are producing.

Those who received top scores of 10 were Jack Bates, Steve Brooker, Frank Edwards, Paul Heester, David Beard, Tina Nuthall, Iggy Tavares, Graham Cluer and Stan Simmons. Jack deserves special mention who achieved the top mark for all three of his images, with Paul not far behind with two 10s. Congratulations to everyone who participated in what turned out to be a remarkable evening.

Entries for the first two rounds of this season's print competitions close in PhotoEntry on Friday, 23 April, with prints being handed in at Shirley Methodist Church on 24 April between 12:00 – 13:00. Since it was not possible to complete last season's competition, the re-use rules do not apply. Any prints used in that competition can be entered in a future contest after which the re-use rules will again come into force.

Club Matters

21 April 2021 – “Night and Day” with David Jenner

Very little is unique in photography but David Jenner lays claim to that distinction with his stunning imagery which combines both daylight and night at the same location. This will be a presentation with a difference.

24 April 2021 – Hand In Prints

Hand in entries for Rounds 1 and 2 of the print competition at Shirley Methodist Church between 12:00 – 1:00 pm.

28 April 2021 – “Creative Flower Photography” with Colin Harrison

A change to the original programme, Colin Harrison will talk about his flower photography. As the title suggests, his work does not consist of simple shots and Colin will take us through his approach and techniques. A look at the images on his website gives an indication of what to expect.
